You may have thought it was a secret, but it really is no secret. You can have whiter, brighter clothes every wash-

day without boiling or scrubbing them.

The answer is the difference between "deep cleaning" and "surface cleaning."

Dirt is embedded in the very heart of the fabric of soiled clothes and mere "surface cleaning" will not take it out. It requires "deep cleaning" to give the garment that sparkling cleanness.

There is only one washer that is "deep

cleaning"-that will absolutely take out that embedded dirt -that entirely eliminates boiling and scrubbing. The

is "deep cleaning" because its washing action penetrates to the innermost fibre of every fabric, with the result that it washes clothes to a sparkling brilliancy impossible to achieve by other methods or other machines without the extra labor of boiling or scrubbing.

You can easily learn why the Zenith cleans cleaner, quicker and safer - why it is so easy to operate. Simply ask us to demonstrate it to you in your own home and on your own clothes. If it doesn't do all we claim, just send it back. Phone now.

The Keys To Success

NDREW CARNEGIE learned the keys to success in a tele-Agraph office, but they were not telegraph keys. Instead, they proved to be two character qualities - thrift and alertness.

Through thrift the young Scotchman built a reserve fund. Through alertness, he used it to grasp opportunities.

We would like to help you build your reserve fund here where we will add interest and give you personal cooperation.
